- 3) Do not turn off by unplugging the cord from the wall
- 4) Do not touch power cord with wet hands.
- 5) Never insert metal objects into cooling holes.
- 6) Avoid moving the light by pulling on the power cord.
- 7) Do not use if unit is damaged, especially power supply cord.
- 8) Do not use in wet areas.
- 9) Contact Smith-Victor for service.

**Smith-Victor WARRANTY**

Smith-Victor warrants to the first commercial owner to be free from defects in the material and workmanship for a period of one (1) year from the date of purchase and will repair or replace product found to be defective under normal use. Warranty does not cover damage caused by shipment, by product abuse, accident, modification, disassembly or use beyond intended use specified by Smith-Victor.

This warranty is the only warranty made to any person by Smith-Victor and is in lieu of all other expressed or implied warranties. The remedies set forth in this warranty shall be the exclusive remedies available to any person for breach of this warranty. Under no circumstances shall Smith-Victor be liable to any person for incidental or consequential damages, whether arising out of breach of warranty or other contract, negligence, strict liability or other tort or otherwise.

**User Manual**

---

**Model: Edge360**
**Item: 401692 & 401696**
**13" and 18" Bi-Color Edge Lit LED Light with Tilt Adapter**

The Edge360 is designed to provide a smooth, diffused light without the need for softboxes or modifiers and is ideal for a wide variety of photo and video uses. The unique design of the Edge360 uses inward facing LEDs to brilliantly illuminate and eliminate microshadows while maintaining a high CRI of 97 for excellent color rendition. The ultra slim design allows the light to be positioned in even the smallest of spaces and then packed up and easily transported. The AC or battery power option makes this the ideal light to take anywhere.

- Ultra Slim profile
- Edgelit LEDs provide smooth, diffused light
- 97 CRI (13") 97 CRI (18")
- Remarkably portable
- AC or battery power
- LCD display with brightness, color temp and battery level
- Mounting bracket provides 360° pan/ 180° tilt
- Round pleasing catchlights

## Operation:

1. LCD display: power level, color temp (bi-color models) and battery level indicator
2. AC Power input
3. Stand mount lock nut
4. Tilt adapter knob
5. Power switch
6. Control knob- Controls brightness and color temperature. Control over each mode changes by pressing in knob
7. NP-F style battery mounts (requires 2 batteries for DC use).
